De about other states? We know

nt our own," inquiringly ventured reporter for The Herap.

I was just reading a fairly good reporter the laws of other states and I med that in Dakota the following some are deemed sufficient ground divorce: Marital infidelity—which instant absolute divorce in every where divorce is not allowed for reason—excessive cruelty, willful ortion and neglect for one year and fitual intemperance. The glorious mate of California is excellent alike the body and for dicorce. Absolute seation is granted there for one is willful desertion, neglect and highlitual intemperance. Extreme telty is also a cause. The cris of Arizonia grant a disperience of Arizonia grant a disperience of the intemperance and neglect and part of the husband to prote the necessaries of life for his wife. I take a plantiff may secure a direct for cruelty, desertion, neglect distemperance, continuing for one ar. In Nebraska the sufficient causes judicial separation are desertion ndicial separation are desertion two years, habitual drunkenness, me cruelty and failure to provide

Nevada severs the marriage tie for a year's desertion, for grossdrunken-, if contracted since marriage, for treme cruelty, and for a year's neg-of on the part of the husband to pro-de for his wife. New Mexico dis-dives the marriage partnership for med treatment, abandonment, habit-al drunkenness and husband's failure arce for such ill treatment as ren-s marned life unbearable and for re years' desertion. roming declare a severance of the mingual relations for one year's will-il desertion, for extreme crueity, hab-nal drunkenness, husband's neglect provide for one year, and for any estment by the one which renders the to of the other intolerable. The above she the other intoierable. The above it the list of those allowing a plainflowed states and territories extitute list of those allowing a plainflowed commence action after a six that residence. Of course when stiffs remove to a distant state always want an absolute coe, not a limited one, not a limited one, is a separation from bed board only. It is well to that Arizons, California, Idaho, ita, New Mexico, Texas and Wyones, Italian and Rhode Island. Of these, and Rhode Island. Of these, bington has been regarded as the large of divorce. Sufficient are cruel treatment, personal nities, habitual drunkenness, relating the last year the defendant has struck plaintiff with pokers, flatinos and other hard substances.

"Lest those in search of a divorce may be misled by the above cases into thinking it as easy as marriage, it is well to remind them that judges insist that proof of the allegations be forthcoming. It will not do to allege sufficient cruelty to call for a divorce unless there is proof. In summing up the divorce statistics for all the states, the report says: "Our courts, instead of being careless in the matter of granting decrees, weigh well the causes alleged, and do not grant decrees unless the allegations of the libellants are fully sustained. In about 30 per cent of the cases of petition a decree has been denied." The judges are, however, compelled to render their decisions in accordance with law, where the statutes lay down a slight cause as sufficient. Whenever that is proved to sing never grant a limited divorce. Second the states requiring one year's indexes on the part of the plaintiff of Washington, Colorado, Moutana, regen, Illinoia, Kansas, Missouri, Wissouri and Rhode Island. Of these, Isabington has been regarded as the appear state for the sensible view her corte take of divorce. Sufficient take of divorce. Sufficient take of divorce, Sufficient to the court, and when the surf is satisfied the parties can no onger live together.

"Colorado and Montana both grant ivorces for one year's drunkenness or secretion and extreme cruelty. The auses in Oregon are cruel and insuman treatment, personal indignities matering life a burden, and gross runksmress contracted since marriage. Illinois it is necessary for the plaint. It is show the existence of extreme at repeated cruelty, two years' described or habitual drunkenness for a ke period of time. The laws of Kanas give a divorce for habitual drunkenness, one year's abandonment, extense cruelty, fraud in the marriage correct and gross neglect of duty. Insouri will grant separation for signifies rendering the life of he other intolerable and for year's desertion or drunkenness. Wisconsin has excelent laws, for they dissolve the ande of matrimony not only for a car's desertion or drunkenness and roel and inhuman treatment, but also then the husband and wife have lived will for the space of five years. The intes of Rhode feland call for five desertion unless the court desertion of means the court desertion of means the court desertion of provide will also annul Legal Grounds in Other States, chitual drunkenness, extreme cruelty of refusal to provide will also annu-marriage contract in the courts.

"The government has recently made at some statistics which show that somesticut has about 11 marriages to diverce; Massachusetts, 30; Ohio, 20; thode Island, 11; Vermont, 16; New Impehire, 10; Maryland, 62; Kansas, 7, Wisconsin, 21. It is impossible to commete the ratio for the banner divorce the owing to the fact that the record of marriages was imperfect. It is interactive to compare these figures with these of various kingdoms in the life World. Reignum averaged 182 marriages to 1 divorce; France from 138 at; England, 718. In some years inhelic freland averages over 20,000 mariages to 1 divorce. Berlin, in 188, had 19 marriages to 1 divorce; entitle Stockholm for the same year had to 1. In 1885 there were 470 marriages in Russia to 1 divorce; in britantland, 23; in Reigium, 138; in russia, 59. Italy grants her wedded forcers no absolute divorce. The peater individuality and desire or freedom in the United labes, as well as the at she has no state religion for-rehablete apparation, would lead expect more divorces. The Amount of Oleomargarine Bought by Mr. Shank Each Month.

J. A. Griffin, the inmate of the Sol diers' home who is making an effort to have the law observed in its administration, was on hand bright and early in Prosecuting Attorney McKnight's office yesterday with the necessary evidence to secure an order for a warrant for the arrest of Quartermaster Shank, charging him with furnishing oleomargarine for use at the home. The warrant was issued and it is expected that the quartermaster will be brought before Justice Westfail this morning for examination. Griffin's affidavit sets forth that \$20 pounds of eleomargarine were purchased for use at the home in December, \$40 pounds in January and \$70 pounds in February. The last order, he states, was given about May 3 for \$00 pounds, and the empty tube, plainly labeled, can be seen at the home. diers' home who is making an effort

Dr. fladcliffe was the most celebrated physi-rian of England in Queen Anne's time. He imassed a large fortune, and was for many rears the physician to the Queen, as well as to most of the English nobility. For some reason most of the English nobility. For some reason the Queen took a dislike to him at one time and dismissed him as court physician. In her last lilness, however, she sent for him. He refused to okey the summons, declaring: "clace her Majesty's case is so desperate and her distemper lacurable. I hardly think it proper to give her any disturbance in her last momenta, so near as hand, but rather it ther die as easily as near as hand, but rather it ther die as easily e possible."

Dr. Radolff observed a short time before his

Dr. William Edward Robeson of the Royal

Dr. William Edward Robeson of the Royal Navy of Engind wrote to a London newspaper called the Family Doctor at follows: "Having had more than seventeen years' experience in my profession, I can conscientiously and emphatically state that I have been able to give more relief and effect more cures by the use of Warner's Safe Cure than by all other mediclust acceptainable to the profession."

The last Dr. Die Laufa, who safe my practibed any medicine, wrote as follows: "If I found myself the victim of a scrious kidney trouble I should use Warner's Safe Cure. The testimony of hundreds of intelligent and very reputable gentlemen hardly leaves room to doubt that it is one of those happy discoveries which occasionally bring aid to suffering huma, ity."

Dr. B. A. Gunn, dean of the United States Medical College and editor of the Medi-cal Tribune, some time since wrote and pub lished a book in which he said: "The ingredients of Warner's Safe Cure are among the most valuable medicines of our materia medica, and the combination is such as to insure the best possible action on the kidneys and urinary organs."

Dr. Andrew Wilson, F.R.S., editor of Health, in replying through his paper to a correspondent who had written him regarding Warner's Safe Cure, said: "Warner's Safe Cure is perfectly safe and perfectly reliable."
